1 The trainers were Palestinians from Iraq. After the Gulf War ended, I wanted to go out to study in Jordan and I  
 2 submitted an application, and then they arrested me and interrogated me about the military training that I had  
 3 had, and I was detained for about a month, and then I departed to Jordan. In Jordan I also participated in training  
 4 on weapons, but that was within the school.

5 Question - When did you start your military activity in the Hamas?

6 Answer - I do not remember exactly, but I think that it was in May 2001, about half a year after the Al Aqsa  
 7 Intifada started. I talked with a relative, [REDACTED], aged about 25, a resident of Beit Rima,  
 8 and said to him that I wanted to engage in military activity in the Hamas, and I asked him to introduce me to  
 9 military activists of the Hamas so that I could work with them in military activity.

10 Question - Why did you talk with [REDACTED] about military activity in the Hamas?

11 Answer - Because he himself is a military operative in the Hamas and he is familiar with the military operatives.

12 Question - Did you talk with anybody else concerning the military activity in the Hamas?

13 Answer - Yes. Before I talked to [REDACTED] about the military activity in the Hamas, I talked with [REDACTED]  
 14 [REDACTED] aged about 35, a resident of Beit Rima, a military operative in the Al Aqsa Martyrs. In that  
 15 period he had in his home wanted men of the military Tanzim. I asked [REDACTED] to introduce to me  
 16 military operatives, and after a few days, [REDACTED] told me to come to his home. I went to his home and  
 17 he showed me a pipe bomb and asked me whether I in explosive devices [sic]. This explosive device was sealed  
 18 on both sides with cement. I took the device to my home and on the following day I took the device to my  
 19 supermarket, and there I disassembled the explosive device and took out some of the material that was inside the  
 20 explosive device. After that I lit the material and the material burned well. After that I tried to make electric  
 21 circuits with an alarm clock and I conducted an experiment with the rest of the explosives that I took out of the  
 22 explosive device that I took from [REDACTED], but I was unsuccessful.

23 (Comment- it is now 11:30 a.m. and the suspect goes out for a toilet break at his request. It is now 11:35 a.m.  
 24 The suspect is returned to the interviewing room and the statement continues).

1 Answer - [REDACTED] asked me what I was able to do and I answered him that I could manufacture explosive  
 2 devices. I took the material from the explosive device that [REDACTED] had given to me and I also took the  
 3 clock and I departed with [REDACTED] to conduct a trial with the material, but the material did not explode.  
 4 After that, [REDACTED] told me that he wanted to introduce to me a person from Nablus, and that person  
 5 would decide whether I could work in the manufacturing of explosive devices and explosives.

6 Question - Who is that man from Nablus who was an expert in explosives and explosive devices?

7 Answer - [REDACTED] aged about 35, a resident of Nablus, who was killed just more than a year ago.

8 Question - How did you get to know [REDACTED]

9 Answer - About three weeks after I asked [REDACTED] to introduce me to military operatives of the Hamas, I  
 10 traveled with [REDACTED] to Nablus, where I met an unidentified person called [REDACTED]. We met him next to  
 11 a restaurant in the city hall square in Nablus. We boarded a taxi and the unknown person told the taxi driver to  
 12 driver to Street No. 10. About four hours before the mosque, I did not see the way that we took because they told  
 13 me to keep my head down and not look at the road. We arrived at a building in which there were two floors and  
 14 we descended to the ground floor. I was given a balaclava to wear and they put me in the room. [REDACTED]  
 15 and the identified person stayed in another room. After that, [REDACTED] entered the room. On that day he  
 16 was masked, and said to me that his alias was [REDACTED] and only after that did I know that it was [REDACTED].  
 17 [REDACTED] said that we would meet once a week and he would teach me to manufacture an explosive that  
 18 was called Um Al Abed, and after that he would teach me to manufacture explosive devices. I told [REDACTED]  
 19 that I agreed and that was why I had come to him.

20 Question - What did [REDACTED] teach you the first time you met him?

21 Answer - He taught me to manufacture an explosive that was called Um Al Abed and about stopwatches.

22 Question - What did you learn in the meetings that you had afterward with [REDACTED]?

 2 [REDACTED]

3 (Note – the suspect tells me that he has a problem with rheumatism and that he prefers to sit on the floor and not  
 4 on the chair. I said to the suspect that as far as I was concerned, there was no problem, and he moved to sit on the

6 In my meetings with [REDACTED] he taught me to manufacture explosive devices that are activated by  
 7 connecting a mobile phone to a charge, manufacturing of charges that are activated by the alarm of a vehicle  
 8 with remote activation, manufacturing of explosive devices that are hidden in a wooden box on which one  
 9 applies cement with paint to make it look like a stone and inside the wooden box one puts the explosive that is  
 10 called Um Al Abed. In my next meeting with [REDACTED] he taught me to manufacture hand grenades,  
 11 explosive belts, how to manufacture an explosive device with a drink can. The next time I met [REDACTED]  
 12 he taught me about how we would keep in contact. In addition he also taught me to make poison from potatoes.  
 13 This is a poison that is put into the explosive device with the explosives, and this substance, i.e. the drug, mixes  
 14 with the screws that the explosive device contains and this substance also kills the people who are injured after  
 15 the explosion if a screw laced with the drug enters the body. At the end of each meeting with [REDACTED], he  
 16 would give me a piece of paper with instructions on how to manufacture the explosive devices that he taught me  
 17 about. In addition, [REDACTED] told the [REDACTED] to buy me a Joule mobile phone, and the [REDACTED] bought me a  
 18 Joule mobile phone and all of my contact with [REDACTED] was with this mobile phone. I do not remember  
 19 the number of the mobile phone.

23 Answer - At the end of my second meeting with [REDACTED] I with [REDACTED] and the unknown person  
 24 [REDACTED] took two plastic drums of olives. Into each drum we put in about 13 kg of Um Al Abed explosives.

 2 me that we would transfer these two drums with the explosives and the pistol to Beit Rima.  
 3 Question - How did you transfer the drums with the explosives and the pistol to Beit Rima?

 5 the explosives in the pistol. He gave the cupboard containing the explosives and the pistol to a transport vehicle  
 6 owner and told him to transfer the cupboard to the Al Amal supermarket in Beit Rima. That is the supermarket  
 7 that was mine. The [REDACTED] told the transport driver that the proprietor of the site, i.e. I, was waiting for him at the  
 8 site. I traveled from Nablus to Salfit and from there to Beit Rima in my vehicle. I traveled to my supermarket,  
 9 and after about half an hour, the driver arrived with the cupboard containing the drums with the explosives and  
 10 the pistol. I traveled with the transport driver to my home. There, we took down the cupboard containing the  
 11 drums with the explosives and the pistol and the driver received money from me and drove off. After about a  
 12 week, [REDACTED] sent me with a special delivery driver a gallon [sic] containing 20 liters of H<sub>2</sub>O<sub>2</sub> (the  
 13 suspect said this in English). The driver came to me with the substance to Salfit, and there I took the substance to  
 14 my home.

 20 wants to and that everything that he would say would be written down by me and might be used as proof against  
 21 him in court. [Arabic signature] Yitzhak Ya'akovoff

22 Question - Where exactly did you take the two drums with the explosives and the gallon with the H<sub>2</sub>O<sub>2</sub> substance  
 23 to?  
 24 Answer - When I worked in satellite dishes I rented a storeroom from a man called [REDACTED]. He lived

25 in Venezuela. I rented the storeroom through [REDACTED] aged about 33, a resident of Beit

1 This storeroom is in Beit Rima. I made a laboratory in this storeroom and to there I transferred the explosives  
2 and the H<sub>2</sub>O<sub>2</sub>. In addition, I transferred to the laboratory the mechanisms of the remote control that [REDACTED]  
3 [REDACTED] sent me with a taxi driver to Salfit. In this laboratory I manufactured the explosives and the explosive  
4 devices:

5 Question - What were the first explosive devices that you manufactured in this laboratory in Beit Rima?

6 Answer - Two stone charges. I told you how one makes these explosive devices. The wooden box in these  
7 explosive devices measured 25X20X40, into them I inserted the Um Al Abed explosives from the top, I added  
8 gypsum with paint so that it would look like a stone.

Question - What did you do with these explosive devices?

Answer - I informed [REDACTED] that I had manufactured the explosive devices and he told me to put one of the explosive devices into the trunk of my vehicle and drive to Salfit and leave the automobile next to the girls' school in Salfit, leaving the trunk open, and return after half an hour to take the vehicle. [REDACTED] said that during that time a person would arrive to take the explosive device. I did what [REDACTED] told me to do and left the vehicle with the explosive device in Salfit, and when I returned to the vehicle, I saw that they had taken the explosive device. I know that the person who took the explosive device has the alias [REDACTED] aged about 25, a resident of Salfit. I do not know his real name. I wish to add that together with the explosive device I put pictures of the explosive device and I wrote on them instructions on how to activate the explosive device so that person would know how to activate the explosive device.

20 Question - What did you do with the second stone explosive device that you made?

21 Answer - I gave it to [REDACTED] and after a few days he was arrested by the Preventive Intelligence, and  
22 they came to his home and took the explosive device.

23 About a week after I transferred the explosive device to [REDACTED] as [REDACTED] said to me, he, [REDACTED] called me and  
24 told me that there was a resident of Salfit with whom there was a problem and he asked me for that person to hid  
25 in my home for a day or two, and after that I would take him to Salfit and he would return to Nablus. I agreed  
26 and met that person in Salfit.

I do not remember the alias of that person. I took that person in my vehicle from Salfit to my home in Beit Rima. He slept over at my place for one night and on the following day I returned him in my vehicle to Salfit and he returned to Nablus.

4 Question - What did you talk about with that person in Salfit when he visited your home?

5 Answer - He told me that he was the one who took the stone explosive device from my vehicle in Salfit and hid  
6 it in an abandoned house in Salfit, and there children found it and ruined the explosive device.

Question - Did that person tell you where he wanted to place the explosive device?
